

Project Profile: Clarence High School Additions and Renovations - 1998

Project Budget: \$ 22 million

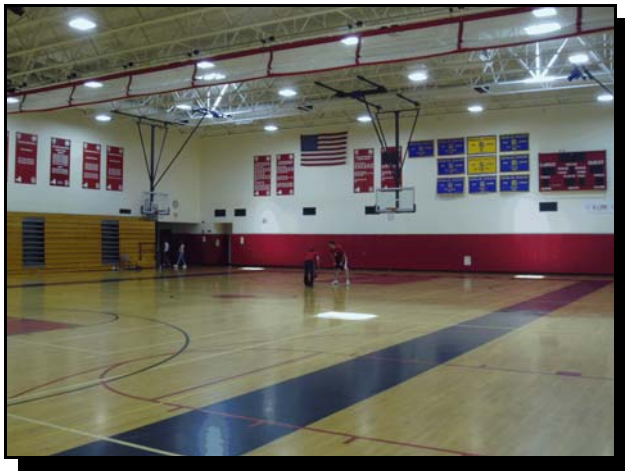

Project Summary:

The Clarence High School project was an extensive project to expand the footprint of the building by close to 50%, and to modernize virtually the entire interior of the building to provide a state-of-the-art facility to serve as the District's only High School.

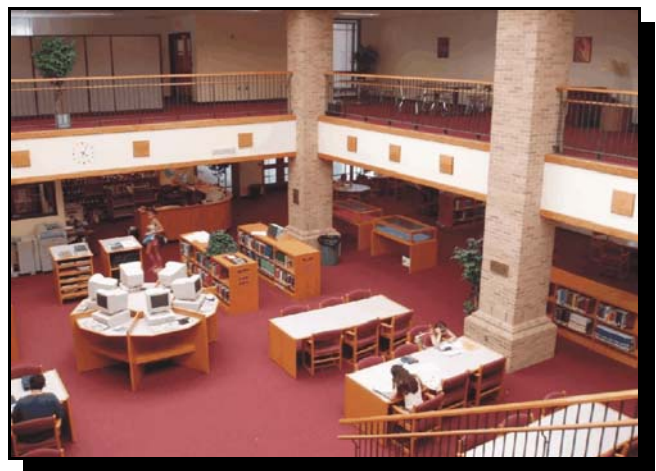

Amongst the primary challenges of the project was the phasing of work in a manner that would allow the reconfiguration of the building while students were occupying the facility.

Primary Construction Objectives:

- ⇒ New Science Suite and Addition
- ⇒ New Gymnasium Complex
- ⇒ New Natatorium
- ⇒ New Music Suite
- ⇒ New Lobby and Corridor system
- ⇒ Conversion of existing Gymnasium into new Library / Media Center
- ⇒ Conversion of existing Natatorium into District Administrative Offices
- ⇒ Renovation of all existing Classrooms
- ⇒ New Heating System, Electrical and Plumbing System upgrades
- ⇒ Asbestos Abatement

New Gymnasium Complex

New Library & Media Center

New Science Laboratory
